Proctorville, Ohio

Dear Sir:

Here is the confirmation you were looking ~~af~~ for. We are very gratified to hear that you were able to hear us on the night of Jan 21st 1952. You might be interested to know that our next check is on February 18 from 2:45 to 3:00 AM MST. That makes it the third Monday morning of each month. Our check point is the Point Reyes measuring lab of R C A.

We are using a Collins 300G transmitter and a 253foot tower fed at the bottom with coax.

In the near future we hope to have our new kw on the air on 600kc...

I hope that we will hear from you then.

Yours Truly

Paul C. Johnston
