KILOCYCLES

December 4, 1953.

Mr. David F. Thomas  
Longwave Listening Post  
Radio W.U.M.S.  
Preactorville, Ohio.

Dear Mr. Thomas:

We wish to thank you for valuable report of 4VYM test broadcast on 1250 KC/s, on November 29th 1953. It will help us as reference in view of future improvement of our antenna efficiency.

I had originally built this transmitter as a standby replacement for our 4VM. Last year I made the conversion for daily operation on 1250 KC/s. The only thing I had to do with one of the other stations you mentioned is that I built 4VGM, as a spare time job.

With our best appreciation of your cooperation,  
we are

Very truly yours,

  
Yvan Michel
