20th April, 1972.

Mr. David F. Thomas,  
Radio W.U.M.S.,  
P. O. Box 11531,  
Tampa, Florida 33610,  
U. S. A.

Dear Mr. Thomas,

Your report of reception of our station on April 10, 1972, is confirmed. You were tuned to our transmitter at Kingston, Naggo Head, 560 kHz. Programmes originate from studios at 5 South Odeon Avenue, Kingston 10, Jamaica.

On the date in question, the skip wave conditions must have been unusual, to enable you to receive as strong a signal as you mentioned. There has been no increase in power.

We are happy to learn that you enjoyed your visits to Jamaica. If you come again and would like to see our station, on your making an appointment for this purpose we shall be pleased to show you around.

Yours faithfully,

R. M. Bent  
Director Engineering  
and Building Services.
