Radio WUMS
Proctorville, Ohio

Dear Mr Thomas,

This will confirm and verify your reception report of December 15, 1956, of WCDJ Frequency Test transmission.

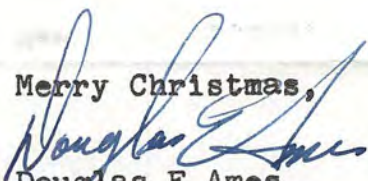

It is always a pleasure to receive reports such as yours, and we were pleased to know our signal is getting out so well. May I also say that your report form is one of the neatest I've received so far.

The majority of our DX reports have come from the northeastern part of the country and a few from the middle west, and it is gratifying to know we can penetrate the conglomeration that is usually found on 1260.

We conduct such tests on the third Saturday of each month and if you run across us again, please let us know.

Thanks again for your report.

Merry Christmas,

Douglas E Ames
Chief Engineer
