

WDSL RADIO  
P. O. BOX 404  
MOCKSVILLE, N. C. 27028

January 21, 1976

David F. Thomas- Director  
P. O. Box 11531  
Tampa, Florida 33680

Dear Sir

Thank you for your reception report of WDSL on January 5th, 1976  
Your report and your interest in our station are always welcome.

WDSL operates daytime only at 1520 khz (non-directional) with  
maximum power of 5,000 watts and 1,000 watts during critical hours  
(2 hours after sign on and 2 hours before sign off).

Our studio is located at the city limits of Mocksville on Jericho  
Church Road. Transmitter is a Collins 21-E remotely operated.

Glad you caught our signal in Tampa. Yours is only report so far  
from Florida. Have 32 reports so far. Two from Canada, Two from  
California But mostly from middle-northern states.

Your trip sounds very interesting, wish I could go.

Thanks again David

Sincerely

*Jack Scott*
