Mr. David F. Thomas
Longwave Listening Post
Radio W. U. M. S.
Proctorville, Ohio, U. S. A.

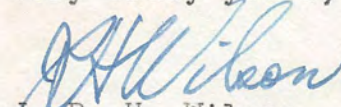

Dear Mr. Thomas:

Many thank's for your recent listener report. We are very pleased to know that, even when operating with one sixteenth of our normal power, we are still getting into seven states. Naturally, we are accustomed to unusual "Dx" reports; but we certainly aren't used to getting them with our present low power.

For your information, we are on low power because of severe damage to our antennas this past winter. We have been working on them all summer, but we do not expect to have them completely rebuilt until late fall or winter.

Once again, our sincerest thank's for your detailed report; and I hope we can count on hearing from you often in the future.

Very truly yours,

J. R. H. Wilson
General Manager and
Chief Engineer
