BROKEN BOW, NEBRASKA  
March 15, 1954

Dear Dave:

This letter will verify your reception of Radio Station KCNI on our DX program and equipment test of March 8, 1954. Sorry about the card veries, I had supposed you had a letter head veri long ago.

It seems that the static and noise which bothered you must have been of a local nature as we had an excellent response from listeners all over the Eastern and Middle Western part of the country. There have been two reports from Canada, one from Manitoba and one from Ontario. Then yesterday finally got a report from the West coast from Ted Saling up in Oregon. He picked us up despite interference from KFOX and KERG.

If you get out to Nebraska this summer be sure and look me up. You'd sure be welcome both at the station and out here at our home in the hills. Right now it is a pretty tough job to get into the Monitor station at Grand Island so if you want to look them over you'd better get the wheels turning to get permission in case you are out here.

We surely appreciate your fine reports that you have sent us on nearly all of our test programs and hope to hear from you many times again. Wish I had a listening set-up such as the one you have back there.

Again thanking you for your fine report, I am,

Sincerely yours,

Don Hill

For Radio Station KCNI

Don't know whether you have a copy of the station booklet or not so I'm enclosing one.

D. H.
