Dear Mr. Thomas:

Thank you for your letter. I am sorry that you were not able to identify our station. It is possible that the test announcement was ours, also the march music at 3:27, but without more information, I wouldn't be able to tell if the station was ours or some other that happened to be making this announcement or using march music.

I was told KFKX Hastings was an experimental super power station, established with the thought in mind of trying to cover the entire country from this central location.

Sincerely,

Robert Senne
Chief Engineer
