

P.O. BOX 669, FREMONT, NEB. 68025

402-721-5012

Nov. 8, 1974.

Dear Sir:

K H U B Fremont, Nebraska operating on 1340 KHz is glad to receive and confirm your signal report on the special DX test of Monday, November 4, 1974 - 2:30 - 3:00 A.M. C.S.T.

Evidently propagation conditions were fairly good by the number of reports from listeners. Enclosed you will find a copy of the Format followed during the half hour test. The test was conducted with full power of 500 Watts.

K H U B serves Eastern Nebraska and Western Iowa with a non-directional daytime power of 500 Watts - nighttime 250 Watts from Fremont Nebraska, with a Sparta Model 701 Transmitter located North Latitude 41° 26' 44" West Longitude 96° 28' 05" on an assigned frequency of 1340 KHz.

K H U B is owned and operated by K H U B, Incorporated with H. C. Snyder President and Chief Engineer and Glen Ilgenfritz Vice President and General Manager.

Very truly yours,

K H U B RADIO
