

RADIO STATION KCHS
HOT SPRINGS, NEW MEXICO
"In The Land of Enchantment"

Dec. 27, 1946

Dear Dave: I am sorry that we have taken so much time to answer your appreciated report on our test signals on Nov. 25, in 46 at L;40 to 1:45 MST. We make a test with Enid, Okla. every week. So perhaps you will hear us again. Naturally, the Holliday Season is a busy one around a Radio Station, which accounts for the delay in confirming your verification.

We are using a Gates 250-C-1 250 watt Transmitter with a 165' tower. Ground system consists of 120 radials, 280 ft. long.

Best Regards
R. L. Shubert
