

March 7, 1957.

Mr. David F. Thomas,  
Radio Station WUMS,  
Proctorville, Ohio.

Dear Mr. Thomas:

This will confirm your report on our station on July 6th, 7th and 8th, 1954.

In reply to your query concerning our power, we were using a 250 watt transmitter with a 100 foot mast on top of a 200 foot hill. Actually, our FM is of little use to us now. Since the only FM station in this area is our own, there are very few FM sets sold. I doubt very much whether we will continue to operate it.

I am happy to hear that our AM signal is strong according to your findings.

We are sorry that we were unable to take care of your first report; somewhere our wires were crossed.

Yours sincerely,

NLN/fml

NORRIS L. NATHANSON.
