

The **ACADIA BROADCASTING COMPANY** *Ltd.*

March 22, 1962
BRIDGEWATER, NOVA SCOTIA

Dear DKer,

This letter will serve to verify that you heard CKBW Radio on January 15, 1962, when we were on the air for our special DX broadcasts.

Originally, I had intened to answer each report with a personal letter, but the response to the programs was so great that this is not possible. All in all, we received approximately 45 letters, from all over the United States and Canada. Some came from as far away as Denver, Colorado, Louisiana, Minnesota, and Texas. The program was of special interest to me, as I was the one who managed it.

Recently, I was promoted to Promotion Director, and with our power increase to 10,000 watts set for July 1 of this year, I just will not have the time to answer each report separately, as I must, understandably, put station work before this, and at this time, there is much to be done at CKBW in this field.

Our transmitting towers are located at Hebbville, three miles to the South of Bridgewater; the power of 1000 watts is fed into two 170' towers. In a month or so, a third tower will go up as part of the power increase. Stations we now protect are WCFL, KOMC, XEOY, and one Cuban.

Once again, thank-you for your report, and I hope you can appreciate my reasons for the delays.

Sincerely yours,

Jim Ernst,
Promotion Director, CKBW.
