

*Loew's State Theatre Building*

BROADWAY AT 45TH STREET  
NEW YORK CITY

March 2nd,  
1934

Mr. David F. Thomas,  
Proctorville, Ohio.

Dear Sir:

In reply to your request for verification when listening to our station on the night of Feb. 22nd.

This is to advise that we were testing the transmitter from 1 A.M. to 5 A.M. every night of that week and it was to these test announcements that you were listening.

These tests were for the purpose of determining what our signal strength would be in Columbia, South Carolina when operating on 1 Kilowatt, also for local coverage.

Field strength measurements were being taken in both places during these tests.

Thanking you for your interest in writing, we are

Very truly yours,

  
G. R. WINDHAM  
Chief Engineer
