"The Mutual Voice of the Hudson Valley"

KINGSTON, N. Y.

March 31, 1944

Mr. David F. Thomas
Proctorville, Ohio

Dear Dave,

Thank you for your report on our DX program in honor of the National Radio Club Sunday March 26, 1944. We were very pleased to have you among our listeners. The results of the program were very good so we hope to put on many Dx's in the future.

In looking over your card I note you have quite a lay-out down there and it is of interest to me. I wish you would write me more about your place when you find time. It will probably interest you to know I'm an ex-Press Wireless Inc., man having been Senior Shift engineer in the Hicksville, L.I. station for several years. I also was very active on the ham bands and W2MYW was my call. Of course, I did a lot of hamming when I was in the U.S. Army Signal Corps 1934 to 1936. It was only in recent years that I finally settled down and took out a call in the New York area.

Well Dave OM, I'm up in my neck answering letters of those boys who wrote in so you'll have to excuse me if I sign off now. Please do let me hear from you again when you find time. In the meantime, thanks loads for listening.

Very truly yours,

Wilbur J. Fahey
