Dear Mr. Thomas:

Thanks for your letter re the NRC test transmission on November 21. Sorry you couldn't get it better, but it seems there was a lot of QRM on at that time, and some of the other fellows had difficulty too, although there were several reports along the east coast of fair reception.

Probably the tone you heard was WKSJ. We were transmitting tone at that time you reported, but it is not possible to make positive identification.

It is nice to hear from you again, since your report of reception of the old station WXYJ. We changed call letters on December 27, 1963 to WKSJ. The transmitter and antenna remains the same as before.

Thanks again for your letter, and best wishes for a Happy Holiday season.

Very truly yours,
Radio Station WKSJ
