Dear Mr. Thomas:

Thank you very much for taking the time to send us such a detailed letter reporting on our signals in your corner of the state.

The tower you referred to on route 3 was ours all right, and that field is the site of our transmitter. The next time you get up this way we would be glad to show you around the transmitter and the downtown studios.

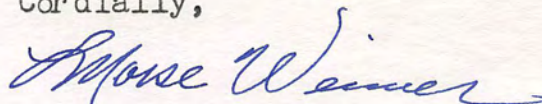

I believe your comment on our call letters is in error, however, as WWVA at Wheeling, W. Va. have both the city and the state represented in their call.

We have had very satisfactory reports such as one from as far South as the Kentucky-Tennessee border and Detroit at high-noon. We think this is doing very well for 500 watts power.

Incidentally, your report checks with our log.

Let us hear from you again,

Cordially,

L. Morse Weimer
