David F. Thomas  
Proctorville, Ohio

Dear Mr. Thomas:

Thank you very much for your lengthy and detailed report on stations W F O B and W F O B - FM.

This letter will confirm your hearing this station the morning of April 5, 1953.

This station is on a DA-2 antenna, practically all North during daylight hours, and North with some South during night-time hours. We are using mainly RCA equipment on our AM and GE on the FM station. In most cases, the stations are simultaneous broadcasts.

During a DX program, January 31, 1953, WOKE gave us a lot of interference after 5 AM, with the exception of on the West Coast, where we had fairly good response.

Thank you very much for your letter.

Sincerely,

Robert G. Kuhn,  
Program Director
