

^{WMNI}
SOUTHERN HOTEL ⁹²⁰

HIGH AND MAIN STREETS
COLUMBUS 15, OHIO

JOSEPH L. GERHART
PRESIDENT AND GENERAL MANAGER

Feb. 17, 1958

Dear DXer:

Thanks very much for the report. THIS LETTER IS TO VERIFY YOUR REPORT OF RECEPTION ON FEB. 3, 1958. Your reply has been most helpful.

Ours is a brand new station. After completing our tests we will start regular programming, probably in a few weeks.

Our studios are in the Southern Hotel, on the 7th floor. The transmitter is about 5 miles southwest of the city limits of Columbus at an elevation of 760 feet. Our equipment is mostly RCA. The transmitter is an RCA BTA-500-MX, 500 watts. Our towers are 4 in number and are 270 feet high. When we go on with regular programming we will be directional NNE. Our tests, however, were made non-directional.

Sorry we couldn't send reply on our letterhead, but they haven't been printed yet.

Best in DX-
William Mnick, Pres.
