THE NILES BROADCASTING CO., INC. POST OFFICE BOX 307, NILES, OHIO 44446 - 652-1721

18 March 1970

Mr. David Thomas
P.O. Box 11531
Tampa, Florida 33610

Dear Mr. Thomas:

Thank you for your reception report of the National Radio Club DX test from WNIO on 15 March 1970 at 1540 kilohertz. The times you listed for our code identifications match our programming so we can verify your reception during these two periods; 2:58 and 3:09 AM E.S.T.

However, we are quite surprised to see you listing interference from ZNS since they were off the air for this test, as arranged by Jerry Conrad of NRC and confirmed by several phone calls from Florida. They did, however, leave their open carrier on during the hour. Perhaps you were receiving another station which you thought was Zed N S.

WNIO operates with 500 watts with a three-tower antenna system.

Sincerely,
Johnny Ryan
