Mr. David F. Thomas
Proctorville, Ohio

Dear Sir;

Thanks for your report. I am happy to verify it. I do not know why we don't get into you at least a little. We did receive reports from many points in U.S. and Canada, some about 500 air miles away.

We use Gates equipment, feeding a 200 ft, Stainless, guyed tower, non-directional. Our reports from the South and East of here have been poor as an average, so something in that direction gives us some trouble.

I want to take this opportunity to thank you and all other DX fans, for the fine reports. It helps to know about what your coverage and pattern may be. I hope some day we can get in your town, so you may log us with a good signal.

Yours truly, for the best in DXing.

C. Chamberlain, owner

CHC/cac
