VINITA BROADCASTING COMPANY

VINITA, OKLAHOMA

PHONE 407

January 27, 1958

Mr. David F. Thomas
Proctorville, Ohio

Dear Dave:

Paul Gentry, with KVIN, has been exceedingly busy of late putting KWPR Claremore, Oklahoma (1270 kilocycles) on the air and has authorized me to verify reports submitted to KVIN in response to KVIN's special DX test broadcast Monday, November 18, 1957.

Your report has been checked and found correct and it is a pleasure to VERIFY your reception of KVIN on the above date.

KWPR went on the air commercially Saturday, January 18th of this year -- and should you have heard KWPR on earlier Equipment Tests or since going on regular schedule, Mr. Gentry hopes to get to those verifications in the near future.

Thanks for your KVIN reception report, and best wishes for continued DXing success! Your identification of the DX code number "333" was quite accurate also.

Cordially,

Paul Gentry
