Dear Mr. Thomas,

Thanks very much for the report, and we are very glad you enjoyed the O. U. games.

Yes, we broadcast from a single, non-directional tower until sunset, when we go to three towers giving a cardioid pattern. Currently the switch is being made at 5:15 p.m. central standard time.

Again thanks for the listening and keep us posted on how we make it into your area, and of course, on any KVOO programs you especially like.

Very truly yours,

Harry Rasmussen
