Dear Mr. Thomas:

In reply to your letter which we received some time ago, and which we regret the delay in answering.

We find your comments most interesting, and on checking our logs find that it was C F J M you were listening to. We realize that our signal is not always clear after dark, especially on a clear night. We have a very good day time coverage and hope to improve the night signal in the near future with new transmission equipment, if not with a new wave length.

Thanking you for your interest,

Yours very truly
