The Parry Sound Broadcasting Company

PARRY SOUND, ONTARIO

March 3, 1943.

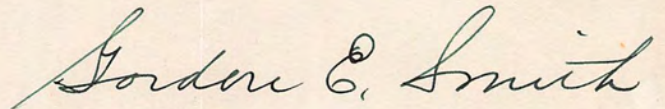

Mr. David F. Thomas,
Proctorville,
Ohio, U.S.A.

Dear David:

Thank you for your report of our Feb. 12, DX broadcast 4.00-5.00 a.m. We too are sorry that it was not more successful. From other reports received there were several stations testing on 14.50 kilocycles at that time, especially during the latter half of the broadcast. We had some very good reports on the first half hour. The farthest point heard from re the broadcast was New México.

Thanks for your comments. This is to verify your report as correct.

Yours sincerely,

Gordon E. Smith, Manager.
