Dear Dave:

This letter is to answer yours of Aug. 29th. listening time.

Am very glad to get the report. The aerial you seen near Petersburg is the local TV station CKCO TV Kitchener. Our AM station is located on the East side of Kitchener, on the #7 highway to Guelph, still in the city limits of Kitchener. This is about 6 miles East from the tower you seen or thought was ours.

Prior to about 1940 or 41 we were located in Waterloo with the transmitter. Your mentioning getting us prior to 1934 brings back some memory's of the (good old days in radio). I started with this station Jan. 1932, that time we were on 645 KC. A few yrs later we were moved up to 1510 KC than to 1490 KC.

Yrs ago we had an old time prog. on every Fri. night, I was wandering if you were one of our listeners and letter writterms we had on that prog..

Good-bye for now Dave

Ion
