David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas:

Certainly appreciate your letter AND the friendly, personal spirit of National Radio Club-- which, as an "inactive" DXer, I'm joining, hoping to erase the "inactive."

Sorry we couldn't break through WEDC in Proctorville, but apparently conditions were poor throughout the country. So far, in the early stages of the week after the broadcast, the best distance we've been heard is Ponca City, Okla. (My birthplace, incidentally!)

You certainly employ an excellent, all inclusive report form. I imagine your ~~xxx~~ veri percentage is proportionately higher.

Thanks again for the letter. Hope to try again a little earlier in the DX season next year when conditions could be better.

73 and best DX

John Callarman
