1260 ON YOUR DIAL

**YAMHILL BROADCASTERS**

1000 WATTS OF POWER  
McMINNVILLE, OREGON

April 26, 1950

Mr. David F. Thomas  
Proctorville, Ohio

Dear Mr. Thomas:

Sorry you ran into interference on 1260 KCs, April 3rd. I didn't give much thought to the fact that there would be eastern interference at 3:30 AM PST. The reason I chose that time for the DX broadcast was that it was the period of time immediately preceding our regular monthly frequency check. I have been approached by other DX fans from the east concerning an earlier broadcast sometime next fall, so it should be possible for you to pick up KMCM at such time when we do put on another DX program.

I rather imagine that any future DX broadcast will be publicized in your weekly publication so you will know about it.

Incidentally, here is a hint: If I am doing any test programming on KMCM which usually will start at 1:00 AM, PST, Wednesday because Wednesday is my regular engineering day and if there is any work to be done I always do it Tuesday night and Wednesday morning.

I hope this information will be of interest to you and thanks again for the interest you have shown.

Sincerely,

*"Skip" Hathaway*

George L. "Skip" Hathaway  
Chief Engineer
