

March 31, 1949

Dear Mr. Thomas:

Your report was very interesting, and indeed suprise to know it was possible to pick us up at all on a portable rig in a mobile unit.

Next winter, if you are interested, we will probably have more DX programs for eastern listeners, and we came on the air so late this winter, that it was not possible to arrange many DX programs this winter... but next winter we will do better! Our frequency check is each 4th Tuesday, at 1:15 to 1:30 AM PST. 1450 kc...250 watts.
