Dear Sir:

We wish to thank you for your recent communication and verify your reception of our experimental station W8XAR. These call letters have been assigned to our new Broadcasting Plant at Saxonburg, Pennsylvania and will be used when we are conducting any experiments or broadcasting test programs. The transmitter is licensed to operate on 980 kcs. between the hours of 1:00 and 6:00 A. M., EDST.

We are receiving letters from all sections of the country and are indeed grateful to our listening public for the interest they have shown. It is only by means of such reports as yours that we, here at the station, can judge the success of our test programs.

We would be very glad to hear from you from time to time receiving any comments you care to make.

Yours very truly,

D. A. Myer
Plant Manager - KDKA
