Dear Mr. Thomas:

This will confirm your report of reception of WVAM on
January 29, 1951 during the hours of 4:00 AM to 5:02 AM,
EST.

For your information WVAM operates on 1430 KC with a
power of 1000 watts day and night and directional pattern
day and night. Our daylight pattern is beamed primarily
north and south southwest and our night pattern is beamed
primarily north northwest and south.

The facts in your card of verification have been checked
with our program log and are found to be accurate.

Thanks very much for your report and interest.

Sincerely,
