Dear Mr. Thomas:

Thank you very much for your letter and the photo copy of the correspondence that dates back to 42 years ago. I am very happy to receive this because, as you can see from the enclosed currently used verification card, nothing in our files indicated the use of the call letters WWSW prior to 1932. I had learned of the previously used call letters WNBK when I first joined the station in 1936. However, even at that time there were no records showing that the WNBK call letters were abandoned prior to 1932.

Your kindness in writing me again after all the intervening years is greatly appreciated. I hope you enjoy your proposed trip to Africa.

Sincerely,
