Mr. David F. Thomas,  
Longwave Listening Post,  
Radio W.U.M.S.,  
Proctorville, OHIO U.S.A.

Dear Sir:

In reply to your letter received last September the 3rd, we checked our Radio Log and the material you heard was correct, so no doubt the station you heard was CJMT. It's the first time we received a report from a mobile station but I hope it is not the last because it is very interesting to get report of that kind.

We are operating on 1450 Kcs with a power of 250 watts. It is a remote control system, and our tower is 170' high. The transmitter is located 3 milles from studio. Our equipment is all Gates stuff. The location is very nice and it covers all the region.

If you come in the Saguenay region sometime, I will be very glad to make you visit our studio and transmitter also. The studio is located in Tremblay's Building, 365, Racine St. E., in Chicoutimi.

I hope that this report will bring you satisfaction, and I will be very glad to hear from you again sometime.

Yours very truly,

A handwritten signature in cursive script that reads "L. Simard".
