

920 WJAR

13 March 1978

Dear Mr. Thomas:

Thank you for your most interesting letter. It is too bad the 1924 card didn't Xerox well. It certainly would have been a novelty as the station is still owned and operated by the Outlet Co., and in the same building. I was in your fine city last November and, with my trusty TRF, listened for several evenings. I'd certainly agree that the Spanish language stations dominate. WJAR was heard from Tampa to Nebraska and up to the Yukon (!) on this test. Most reports indicated it was not a good DX night. Perhaps another test next Fall will do better, especially on the West Coast.

Best Regards,

Craig Healy
