Dear Sir or Madam:

We have great pleasure in verifying your reception of our station the late evening of March 10th and early morning of March 11th.

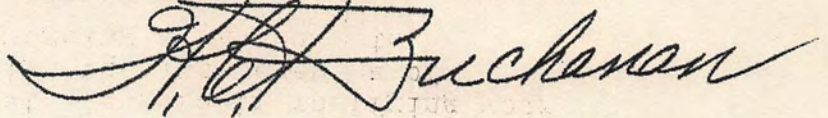

We have carefully compared the information given in your letter with our log and there is no question but that you heard our station.

We had a large number of replies to this test from all over the North American continent and have delayed sending you verification until all letters were in.

Again thanking you for your interest and hoping to hear from you again, we are,

Yours very sincerely,

THE MOOSE JAW RADIO ASSOCIATION
