

KBUC Radio AM-FM

THE BEST SOUND AROUND BY TURNER BROADCASTING CORPORATION
NUMBER ONE FOR WESTERN FUN

TOM E. TURNER
PRESIDENT

HARRELL BANKS
GENERAL MANAGER

Dear Mr. Thomas:

KBUC-AM was operating on 1310KHz the morning of January 7, 1974 - 12:30 a.m. to 2:00 a.m., Central Daylight Saving Time.

Transmission was a series of test tones with voice announcements approximately every 15 minutes, "KBUC, San Antonio, on the air for maintenance and equipment tests," or words similar to those.

From the information supplied in your letter, I can confirm your receiving KBUC.

I operated with 5kw directional antenna - 12:30 to 1:30 a.m., then switched to 500 watts till 2:00 a.m.

KBUC has a null to the northeast, toward WRR (Fort Worth).

Sincerely,

Ray Hettinger
Chief Engineer
