VICE-PRESIDENT

L. L. DUCKETT  
SECY.-TREASURER

Mr. David F. Thomas  
Proctorville, Ohio

Dear Mr. Thomas:

Thank you very much for your report on the reception of KULP on the morning of March 4th. The information you submitted checks with our log so please accept this as your verification.

Our equipment here is Collins with the exception of the turntables which are Presto and the frequency and modulation monitors which are General Radio. The transmitter is a Collins 20T and is coupled to a series-fed antenna that is guyed and is 200 feet high overall. The weather was clear with a slight fog and a temperature of about 60 degrees.

Thanks again for the report and best of luck to you in your DX efforts!

Very truly yours

*Joe H. Miller*

Joe H. Miller, Chief Eng.
