

KEEP

LOWER RIO GRANDE VALLEY  
BROWNSVILLE, TEXAS

Dec. 19, 45.

David F. Thomas  
Proctorville, Ohio

DEAR MR. THOMAS;

Your report on our station is  
appreciated.

You are correct about our ground  
system; it has been renewed through-  
out, however, our antenna is the same.  
Also, our power is the same. In  
the near future, we do expect to  
go to a kilowatt.

NBC

I shall be glad to hear from  
you at any time. I am an old  
"ham" W7EVV, ex-Army Radar man, and  
a hitch at sea as a Radio Officer.  
As yet, my activity has been confined  
to putting KVAL in shape. The  
war did its part to BC stations

as you probably know.

Should you ever visit Brownsville,  
I should enjoy having you visit  
me & KVAO. Please ignore  
the fact that our stationery hasn't  
been changed to conform to our  
new call letters.

I wish to thank you again  
for dropping us a letter about  
our station.

Very truly yours,

TEST:  
2nd & 4th Fridays  
each month - 3:30-4:55 AM

Curtis M. Hammer  
Chief Engineer

Schedule:

Mon. thru Fri. - 6 AM to 12 MN
