Radio W.U.M.S.
Proctorville, Ohio

Dear Sir:

This is to verify your report of reception of our program on January 16, 1955, 4:10 to 5:00 pm CST. The weather here was overcast and foggy.

The transmitter is located on the northwest side of Houston, within the city limits, just off the highway to Austin. We have four 135' towers in a rectangle but at that time we were operating nondirectional feeding the north tower with 5000 watts.

We wish you success in your future listening.

Charles E. Doye

Chief Engineer

As a born and bred Yankee I can tell you that Houston is Heavenly,
(They say the biggest Texas booster is the Naturalized Texan)
