

## Thanks for Your Interest In WOAI

As San Antonio's first and greatest radio station, WOAI is a friendly by-word among Texas listeners. It is our constant aim to contribute to the growth of that friendship by presenting the *best* programs that radio offers.

WOAI is an affiliate station of the National Broadcasting Company and a member of the Texas Quality Network, operating full-time with 50,000 watts on a clear channel.

*In the photos: Top row -- WOAI's Women's Editor -- our popular hill-billy unit -- view of control console -- and a musical production in action. Center row -- one of WOAI's newscasters -- the auditorium -- the transmitter control panel -- and a novelty musical group. Bottom row -- our Mexican songstress -- a sports interview -- fan mail -- and WOAI's battery of INS and UP news teletype receivers.*
