Mr. David F. Thomas
Proctorville, Ohio

Dear Mr. Thomas

Our DX Jamboree Program, put on particularly at the request of DX listeners, was a huge success.

I would like to write each one of you a personal letter telling you how much we enjoyed putting on the program for you, but the many telegrams, cards, and letters received makes this an impossibility. Therefore, I hope that you will please pardon this mimeographed letter which I am forced to use in order to acknowledge all of the verifications of our broadcast that have been pouring in.

I am especially grateful to the many "old-timers", who wrote in, for their words in regard to WRR's broadcasts through the years. As many of you know, WRR has been broadcasting since 1921, being one of the first three or four stations to start radio broadcasting, and we are particularly proud of our uninterrupted years of service to our millions of listeners.

Best of luck to each and everyone of you.

73.
