David F. Thomas
Longwave Listening Post
Proctorville, Ohio

Dear Mr Thomas:

We feally appreciated your nice letter and comments on our WRR-FM station from up Tennessee way and always glad to get reports from our listeners on our AM and FM stations. WRR-FM has a power of 68,000 watts (ERP) and a Collins transmitter of 10 KW with an 8 bay antenna mounted on a 586 foot tower on the Fair Grounds in Dallas. WRR-FM seems to do a good job and we get letters often from listerners as far out as 120 miles. Thanks again for your nice comments and let us hear from you again.

Sincerely yours,

Richard Weeks
Program Director
