December 29, 1972

Mr. David F. Thomas  
Radio WVMS  
P.O. Box 11531  
Tampa, Florida 33610

Dear Dave:

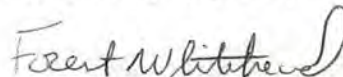

I am pleased to report to you that your reception log of our station on December 18, 1972 between 2:50-3:10 a.m. EST was correct. I was delighted, also, that you included your verifications from years gone by. It was interesting and informative to us and was well received here.

We conducted tests on our transmitter on two different patterns and power levels. We had been experiencing modulation problems and it was necessary to make tests and adjustments. When you received us, we had just increased power to 5 kilowatts (daytime facilities) for further checks and adjustments.

This is the first time that I have received a report from Florida. We have received reports from New York, New Jersey, Maryland, Ohio, Indiana and the Carolina's.

Thanks for taking the time to write us and on behalf of myself and the station, Happy New Year!

Sincerely yours,

Forest Whitehead  
Chief Engineer
