CONFIRMATION OF DX REPORT

Dear Mr. Thomas: Thank you for your Tampa reception report on WCPK on February 26, 1973. I appreciate the detailed comparison with others on 1600. Only in the Midwest (and in NYC area) did WWRL really create problems of QRM apparently. Reports received all the way from Nova Scotia to Wisconsin to Florida (you..in Tampa)... many reading like yours..."100% readable"--almost like a "local"... All in all..response much greater this time. We often get down to Tampa/ St Pete. Will try to give a phone call next time through.
