THE FRIENDLY VOICE

FALLS CHURCH, VIRGINIA

January 22, 1949

David F. Thomas
Proctorville, Ohio

Dear Sir:

We at WFAX were very pleased to receive your report of our test broadcast of January 15, 1949 which you heard on your car radio while driving between Huntington and Proctorville around 0326. Your report is correct and this letter will serve as verification.

I have noticed the great array of radio receiving equipment you have at the home QTH. It seems to me that you could find great pleasure in your DXing with such. We are going to be testing again February 15 from 0300-0600 and would be very pleased to receive another report from you as heard in your home listening post especially before and after the sign on of WGAR at about 5:30AM EST.

WFAX is a daytime 250w station using a Gates transmitter and sharing the antenna of WQQW.

If the "International DXers Society" has any DX notices that you would like aired on our next test send them along and we'll try to send them out!

Good DX,

Lamar A. Newcomb,
General Manager
