Mr. David F. Thomas
Procterville, Ohio

Dear Sir:

Station W H L F is pleased to receive your nice report on the reception of our signals during Equipment Test programs during the past few days. It is a pleasure to verify your reports of reception, and we appreciate very much the helpful information included.

The response from DX-ers has been extremely gratifying. We would like to answer each card or letter personally, but the large number of reports so far received makes this impossible. This acknowledgment and note of thanks, though duplicated, is nevertheless sincere.

Sincerely,

William D. Gregory
