Mr. David F. Thomas  
Proctorville, Ohio

Dear Dave,

Thanks so much for the report. It was  
WKEY you heard. We were on from 3:55 to 5:55 A.M.  
that morning making an equipment test and frequency  
check from the transmitter.

I'm a DX-er myself and I know a a fellow  
dial-twister likes to get a prompt verification.  
Since I am a DX-er I was <sup>un</sup>animously elected to  
answer the DX reports --- So here's yours.

I belong to the NNRC. Oh yes --- about that pest  
WXEL, I agree. It messes up my early morning DX-ing here  
on 1340. Wonder how a 250-watter like that gets such good  
coverage especially on that crowded channel.

Thanks again for the report!

Best of luck,

*Frank Badders*
