Dear Mr. Thomas:

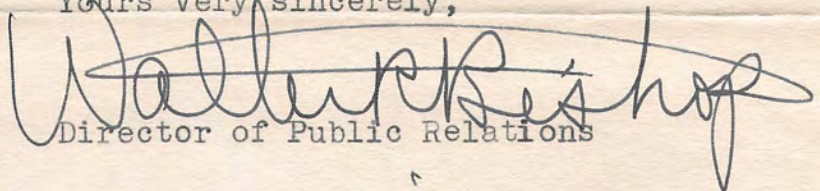

Thank you very much for your interesting report of your early morning reception of our test program on December 2.

We feel very much complimented to know that you were one of our first listeners and your reference to our old verification cards bring back many memories. It seems a long road from two three-hour programs weekly to our present eighteen-hour daily schedule.

We do not have any verification cards similar to those used in the early days but are mailing you a copy of our WRVA *Dialog* for this month. We are also sending a copy of the November issue of the WRVA *Dialog* which made reference to our fifteenth anniversary.

With best wishes, and hoping to continue to be favored by having you as one of our listeners,

Yours very sincerely,

  
Director of Public Relations
