Dear Sir:

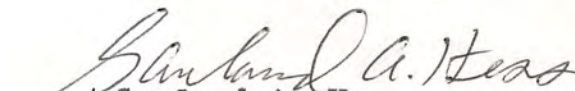

This is to confirm reception of our station on 1/15/68. Since you heard tone, feel sure this was us. We have received several reports from south, west, Missouri, and north to Conn., and none mentioned hearing 1000 cycle tone except as originating from us. Glad to have had you aboard.

We are using Gates Vanguard 1 transmitter, solid state except for one tube. Results have been very good.

Sorry this letter is late, the flu bug plus 12 to 14 inches of snow have had us down.

Stop by and visit us some time on your way to Ohio.

Yours very truly,

Garland A. Hess
General Manager

NO OTHER REPORTS FROM FLORIDA.
