HARRY C. WHITEHILL

1420 Kilocycles
211.3 Meters
50 Watts

WATERBURY, VERMONT

January 16, 1932.

Mr. David F. Thomas,
26th Street Ferry Co.
Proctorville, Ohio.

Dear Friend:

This will acknowledge and verify your detailed report of reception of our test program during the early morning hours of ~~December 29~~, 1931.

We are very pleased to find it checks correctly with our log. If 10c was sent for Ekko Stamp it is enclosed.

Thank you very kindly for your interest in Vermont's newest station. The hundreds of letters received, some from California, indicate our December test was a complete success. Thanks for good report----we did reach California.

Cordially yours,

STATION WDEV
