Thank you for your DX report..and though difficult at first to confirm I honestly believe I can give you an affirmative on reception of our signal. I kept a pretty accurate log, of vocals, instrumentals, times, etc., personally, so any sketchy reports (such as yours) could be confirmed..or denied. There is only one I have NOT confirmed..and that was a report to the Manager, that all he heard was K A R I..and I doubt that I could honestly feel it should be confirmed..what do you think?

Incidentally, the reason I confirmed your 3:30--3:33 vocal (man) was because I purposely started that time with a male vocal..which is recorded who..etc., and is against station policy of starting segments with vocals.

Thanks much,

BOB CONE
